Symposia of the 125th Annual Meeting of the Pharmaceutical Society of Japan

S23 The Frontiers of Organic Synthesis for Drug

- S23-1 Characterization of novel genes expressed in the early stage of adipocyte differentiation
 - Masayoshi Imagawa (Graduate School of Pharmaceutical Sciences Nagoya City university)
- S23-2 Pathophysiologic Role of Leptin in the Metabolic Syndrome

Yoshihiro Ogawa (Tokyo Medical and Dental University)

S23-3 Hepatic Gene Expression; Therapeutic Target for Metabolic Syndrome

Wataru Ogawa (Graduate School of Medicine, Kobe University)

S23-4 Interconnection between cholesterol and fatty acid metabolisms

Hiroyuki Arai (Graduate School of Pharmaceutical Sciences University of Tokyo)

S23-5 Wnt coreceptor LDL Receptor-Related Protein 5 (LRP5) is Essential for Normal Cholesterol Metabolism and Glucose-Induced Insulin Secretion

Juro Sakai (Research Institute of Advances Science and Technology, the University of Tokyo)
