Today's pharmaceuticals regulations intend to accelerate efficient development of pharmaceuticals whilst maintaining safeguards on quality, safety and efficacy. Regulatory bodies and pharmaceutical industries of Japan, EU and US has been closely cooperating in ICH (The International Conference on Harmonization of Technical Requirements for Registration of Pharmaceuticals for Human Use) to publish many harmonized guidelines as outcomes of Regulatory Science since 1990. The Regulatory Science was established through global enormous experience on pharmaceuticals development, and Pharmaceutical Education is responsible for inheriting it to future generation.
